Mandatory Disclosures of Costs and Limitations

Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability	Additional Types of Costs or Fees		Limitations (Contractual / Business Practices)		Limitations (Technical / Practical)	
			Additional types of costs or fees that a user may be required to pay to > the capability.	> any data generated in the course of using the capability.	Limitations of a contractual nature (including developer policies and other > in the implementation or use of the capability.	> in connection with the data generated in the course of using the capability	Limitations of a technical, technological or practical nature that a user may encounter that could: > prevent or impair the successful implementation, configuration, customization, maintenance, support, or use of the capability.	> prevent or limit the use, exchange, or portability of any data generated in the course of using the capability
170.315.a.1 Computerized Provider Order Entry (CPOE) Medication	This functionality enables users of CEHRT to place Medication orders electronically. (Multum Drug database)	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs - Per Provider/Per Month)	None	None	None	None	None
170.315.a.2 Computerized Provider Order Entry (CPOE) Lab Order	This functionality enables users of CEHRT to place Lab Orders electronically.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	One time lab interface for provider paid by Lab	None	None	None	None	None
170.315.a.3 Computerized Provider Order Entry (CPOE) Radiology Order	This functionality enables users of CEHRT to place imaging orders electronically.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	One time imaging center interface paid by imaging center	None	None	None	None	None
170.315.a.4 Drug-to-Drug, Drug-to-Allergy interaction checks	This functionality enables CEHRT users to be alerted for potential drug interaction alerts before they commit the orders to patient's chart. The e-Rx subscription to the CEHRT provides access to Multum Drug database utilization review alerts during the process of ordering medications.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs - Per Provider/Per Month)	None	None	None	None	None
170.315.a.5 Demographics	This functionality enables CEHRT to capture demographic information of the patient. There is integration with PM system and PM system is the source for capturing demographic data as part of patient intake process.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.a.6 Problem List	This functionality enables a user to electronically record, change, and access a patient's active problem list over multiple encounters, following ICD-9, ICD10, and SNOMED standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for AMA (CPT and ICD Annual Royalty fees - Per provider/per year)	None	None	None	None	None
170.315.a.7 Medication List	This functionality enables a user to electronically record, change, and access a patient's active medication list as well as medication history over multiple encounters, following RxNorm, CVX, and NDC standards. (Multum drug database)	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), EPCS (e-Prescription for Controlled Drugs - Per Provider/Per Month)	None	None	None	None	None
170.315.a.8 Medication Allergy List	This functionality enables a user to electronically record, change, and access a patient's active medication-allergy list as well as medication-allergy history over multiple encounters, following RxNorm standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month)	None	None	None	None	None
170.315.a.9 Clinical Decision Support	Through support of content programs, users can leverage real-time, patient-specific, actionable alerts and notifications. Instant access to critical data and prospective notifications based on real-time documentation facilitate positive behavior changes at the point-of-care, improving patient outcomes.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), AMA (CPT and ICD Annual Royalty fees - Per provider/per year), EPCS (e-Prescription for Controlled Drugs - Per Provider/Per Month), Direct Message (Per Provider/Per Month), One	None	None	None	None	None
170.315.a.10 Drug-Formulary check	This functionality enables a CEHRT user to perform Drug Formulary checks during medication prescriptions. This functionality is included in EHR subscription and utilizes the Surescripts eligibility files to determine formulary coverage.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), AMA (CPT and ICD Annual Royalty fees - Per provider/per year)	None	None	None	None	None
170.315.a.11 Smoking Status	This functionality enables a user to electronically record, change, and access the smoking status of a patient using SNOMED standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.a.12 Family health history	This functionality enables the user to electronically record, change and access a patient's family health history.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.a.13 Patient-Specific Education Resources	This functionality enables the user to electronically identify patient-specific education resources based on data included in the patient's problem list, medication list, and laboratory tests and values/results, according to Infobutton standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), AMA (CPT and ICD Annual Royalty fees - Per provider/per year)	None	None	None	None	None
170.315.a.14 Implantable Device List	This functionality enables capture of patient implantable device data as history in the chart. The certified EHR interacts with FDA Webaccess GUDID to incorporate the device ID and Unique device identifiers for the implantable device.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.a.15 Social, Psychological, and, behavioral data	This functionality enables capture of social, psychological and behavioral data in a question and answer format in patient chart.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.b.1 Create and Transmit Summary of Care Record	This functionality enables a user to electronically create and transmit a transition of care/referral summary in C-CDA format, which includes encounter diagnoses, immunizations, cognitive status, functional status, the reason for referral, and referring or transitioning the provider's name and office contact information. The solution follows C-CDA and Direct standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month) Additional cost for HIE integration and other registries	None	None	None	None	None
170.315(b)(2) Clinical Information Reconciliation and incorporation	This functionality enables a user to electronically reconcile problems, medication allergies, medications, and immunizations listed in an incoming transition of care/referral summary C-CDA format to against the patient's medication list, problem list, medication-allergy list, and immunization list in the EHR.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month), AMA (CPT and ICD Annual Royalty fees - Per provider/per year) The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month) Additional cost for HIE integration and other registries	None	None	None	None	None
170.315.b.3 ePrescribing	Complete with drug-drug interaction checks, allergy checking and plan-specific formularies, this functionality enables a user to prescribe and route prescriptions directly from the exam room to the patient's preferred pharmacy for faster fulfillment. The solution uses RxNorm and NCPD standards, and the SureScripts infrastructure for prescription transmission to the pharmacy.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for Drug Database (Multum Center – Per Provider/Per Month) EPCS (e-Prescription for Controlled Drugs - Per Provider/Per Month)	None	None	None	None	None
170.315.b.6 Data Export	This functionality enables a user to electronically create a set of export summaries for all patients in C-CDA format that represents the most current clinical information about each patient. It includes clinical data defined in the Common Clinical Data Set, the reason for referral, and the referring or transitioning provider's name and office contact information.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)	None	None	None		None
170.315.c.1 Capture and export	This functionality enables a user to electronically capture and export all the data necessary to calculate each of the Allscripts-supported Clinical Quality Measures (CQM), including the codification of CQM exceptions and exclusion.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost may apply for Submission of Data by OmniMD	None	None	None	None	
170.315.c.2 Import and Calculate	This functionality enables a user to electronically import all the captured data needed to calculate each of the OmniMD-supported Clinical Quality Measures (CQM), and to calculate each certified CQM using the Quality Reporting Document Architecture standard.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost may apply for Submission of Data by OmniMD	None	None	None	None	None
170.315.c.3 Electronic submission	This functionality enables a user to electronically create a data file for transmission of Clinical Quality Measures (CQM) data according to the Quality Reporting Document Architecture standard.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost may apply for Submission of Data by OmniMD	None	None	None	None	None
170.315.e.1 View, Download and Transmit to Third Party	This functionality enables patients to view, download or transmit their health information in the patient portal that was sent from OmniMD EHR. The data encompasses the common clinical data sets. Any time there are patient chart changes, the EHR automatically sends an update of the chart in CCDA format to the patient portal for the patient to view.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.e.2 Secure Messaging	This functionality enables users to send and receive secure messages to/from patients in the EHR using the OmniMD patient portal. Secure messages may be initiated by the provider using the EHR or the patient using the patient portal, and may include clinical data, administrative data, and other information.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.e.3 Patient Health Information Capture	This functionality enables user to capture patient health information into chart to support better patient engagement in their care.Patient portal can be utilized to provide this data in addition to EHR functions.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315.f.1 Transmission to Immunization Registries	This functionality electronically transmits the recorded or changed immunization information to a state registry using HL7 Immunization Messaging standard.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost for HIE integration and other registries	None	None	None	None	None
170.315.f.2 Syndromic Surveillance	This functionality enable the EHR to electronically create syndrome-based public health surveillance information for electronic transmission in accordance to the HL7PHIN Messaging standard for Syndromic Surveillance.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost for HIE integration and other registries	None	None	None	None	None
170.315.f.4 Transmission to cancer registries	This functionality enables EHR to create a cancer CDA document and submit to Cancer registries.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost for HIE integration and other registries	None	None	None	None	None
170.315.f.7 Transmission to Public Health agencies -Healthcare surveys	This functionality enables EHR to create a Healthcare ambulatory survey 1.0 CDA CDA document and submit to CDC.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost for HIE integration and other registries	None	None	None	None	None
170.315(g)(2) Automated measure calculation.	This functionality enables certifying EHR to record and calculate objective measures.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	Additional cost may apply for Submission of Data	None	None	None	None	None
170.315(g)(3) Safety Enhanced Design	This functionality enables certifying EHR to meet the summative usability guidelines for end users.			None	None	None	None	None
170.315(g)(4) Accessibility centered Design	This functionality enables use of certified EHR technology for users with disability. Professional EHR adhered to WCAG 2.0 standards.			None	None	None	None	None
170.315(g)(6) Consolidated CDA performance	This functionality certifies the CDA performance for all CDA documents generated from certified EHR to ONC prescribed standards.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month) Additional cost for HIE integration and other registries	None	None	None	None	None

170.315(g)(7) Application access - Patient selection	This functionality enables patient to connect with Open APIs of OmniMD.	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315(g)(8) Application access - Data category request	This functionality enables patient to connect with open APIs with OmniMD EHR and request data from Common Clinical Data set categories	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315(g)(9) Application access - all data request	This functionality enables patient to connect with open APIs with OmniMD EHR and request data from Common Clinical Data set categories	Monthly Subscription Fees /Per Provider. It includes all updates, upgrades and technical support. It also included Patient Portal at no additional costs		None	None	None	None	None
170.315(h)(1) Direct Project	This functionality allows certified EHR to connect with any HIE and demonstrate interoperability using DIRECT protocols. We have Direct Project integtraioin with Updox.		The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)	None	None	None	None	None
