

Mandatory Disclosures of Costs and Limitations						
Capability	Description of capability	Types of Costs or Fees to be paid by a provider for the capability	Additional Types of Costs or Fees	Limitations (Contractual / Business Practices)	Limitations (Technical / Practical)	Limitations of a Technical Feature Restricting Government Entities or Other
			Additional Types of Costs or Fees that are not required to pay for the capability	Limitations of a Technical Feature Restricting Government Entities or Other	Limitations of a Technical Feature Restricting Government Entities or Other	Limitations of a Technical Feature Restricting Government Entities or Other
			Any data generated in the course of using the capability	Limitations of a Technical Feature Restricting Government Entities or Other	Limitations of a Technical Feature Restricting Government Entities or Other	Limitations of a Technical Feature Restricting Government Entities or Other
130.315.4.1 Computed Provider Order Entry (CPOE) Medication	This functionality enables users of CPOE to place Medication orders electronically (within Drug Database)	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), ICD-9 Prescription for Controlled Drug - (Per Provider/Per Month)	None	None	None
130.315.4.2 Computed Provider Order Entry (CPOE) Lab Order	This functionality enables users of CPOE to place Lab Orders electronically.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	One-time lab interface for provider paid by Lab	None	None	None
130.315.4.3 Computed Provider Order Entry (CPOE) Imaging Order	This functionality enables users of CPOE to place imaging orders electronically.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	One-time imaging order interface paid by Imaging Center	None	None	None
130.315.4.4 Drug-to-Drug, Drug-to-Drug Interaction Checks	This functionality enables CPOE users to identify for potential drug interaction alerts before they are entered into the patient's chart. This is a subscription to the CPOE provider access to Multum Drug Database utilizing various alerts during the process of entering medication.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), ICD-9 Prescription for Controlled Drug - (Per Provider/Per Month)	None	None	None
130.315.4.5 Demographics	This functionality enables CPOE users to capture demographic information of the patient.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.4.6 Problem List	This functionality enables a user to electronically record, change, and access a patient's active problem list over multiple encounters, following ICD-9, ICD-10, and SNOMED standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for AMA CPT and ICD Annual Fee/Year (per provider/Year)	None	None	None
130.315.4.7 Medication List	This functionality enables a user to electronically record, change, and access a patient's active medication list as well as medication history from multiple encounters, following ICD-9, C.V. and NDC standards. (Maximum Drug Database)	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), ICD-9 Prescription for Controlled Drug - (Per Provider/Per Month)	None	None	None
130.315.4.8 Medication Allergy List	This functionality enables a user to electronically record, change, and access a patient's active medication allergy list as well as medication history from multiple encounters, following ICD-9 standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month)	None	None	None
130.315.4.9 Clinical Decision Support	Through support of content programs, users can leverage real-time, patient-specific, prescriptive alerts and notifications, based on critical data and prescriptive notification based on real-time documentation facilitate positive behavior change at the point of care, improving patient outcomes.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), AMA CPT and ICD Annual Fee/Year (per provider/Year), ICD-9 Prescription for Controlled Drug - (Per Provider/Per Month), Direct Message (Per Provider/Per Month), One	None	None	None
130.315.5.0 Drug-Formulary Check	This functionality enables a CPOE user to perform Drug-Formulary Check during medication prescription. This functionality is included in EHR subscription and utilizes the SureScripts eligibility fees to determine formulary coverage.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), AMA CPT and ICD Annual Fee/Year (per provider/Year)	None	None	None
130.315.5.1 Smoking Status	This functionality enables a user to electronically record, change, and access the smoking status of a patient using SNOMED standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.2 Family Health History	This functionality enables the user to electronically record, change and access a patient's family health history.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.3 Patient Specific Educators Resources	This functionality enables the user to electronically identify patient-specific, education resources based on data included in the patient's problem list, medication list, and laboratory tests and values/results, according to individual standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), AMA CPT and ICD Annual Fee/Year (per provider/Year)	None	None	None
130.315.5.4 Implantable Device List	This functionality enables capture of patient implantable device data in history in the chart. This data is used to track with the Medtronic iCDs to recognize the device ID and unique device identifiers for the implantable device.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.5 Social, Psychological, and Behavioral Data	This functionality enables capture of social, psychological and behavioral data in a question and answer format to patient chart.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.6 Create and Transmit Summary of Care Record	This functionality enables a user to electronically create and transmit a transaction of patient information to a C-DA format, which includes patient demographics, communications, cognitive status, functional status, the reason for referral, and pending or forthcoming for provider's care and other relevant information. The solution follows C-DA and Direct standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for One-Time Setup Cost for Direct Message. Additional cost for HL7 integration and other registries	None	None	None
130.315(6)(2) Clinical Information Reconciliation and Incorporation	This functionality enables a user to electronically review problems, medication allergies, medications, and immunizations based on an incoming condition of patient history. C-DA format to capture the patient's problem list, medication list, medication allergy list, and immunization list in the EHR.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), AMA CPT and ICD Annual Fee/Year (per provider/Year). The additional cost will be for One-Time Setup Cost for Direct Message. Additional cost for HL7 integration and other registries	None	None	None
130.315.5.7 ePrescribing	Complies with drug-drug interaction checks, allergy checking and other specific transactions. This functionality enables a user to print the print prescription directly from the main screen to the patient's preferred printer for faster fulfillment. The solution uses ICD-9, C.V. and NDC standards, and the SureScripts infrastructure for prescription transmission to the pharmacy.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for Drug Database (Maximum Center - Per Provider/Per Month), ICD-9 Prescription for Controlled Drug - (Per Provider/Per Month)	None	None	None
130.315.5.8 Data Export	This functionality enables a user to electronically create a set of report summaries based on patient's C-DA format that represent the report content. Clinical information about each patient. It includes clinical data defined in the Common Clinical Data Set, the reason for referral, and the referring or transferring provider's name and office contact information.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for One-Time Setup Cost for Direct Message. Additional cost for HL7 integration and other registries	None	None	None
130.315.5.9 Capture and Report	This functionality enables a user to electronically capture and report all the data necessary to calculate each of the Alternative Reported Clinical Quality Measures (AR-CQM), including the calculation of CQM exceptions and exclusions.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost may apply for Submission of Data by Download	None	None	None
130.315.5.10 Import and Calculate	This functionality enables a user to electronically import all the captured data necessary to calculate each of the Standard Reported Clinical Quality Measures (SR-CQM), and to calculate each certified CQM using the Quality Reporting Document Performance standard.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost may apply for Submission of Data by Download	None	None	None
130.315.5.11 Electronic Submission	This functionality enables a user to electronically create a data file for transmission of Clinical Quality Measures (CQM) data according to the Quality Reporting Document Architecture standard.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost may apply for Submission of Data by Download	None	None	None
130.315.5.12 View, Download and Upload to Third Party	This functionality enables patients to view, download or upload their health information from the common clinical data sets. The data encompasses the common clinical data sets. Also there are patient chart changes, the EHR automatically sends an update of the chart in C-DA format to the patient portal for the patient to view.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.13 Secure Messaging	This functionality enables users to send and receive secure messages to/from patients and providers. The messages are sent through a secure web portal, and are encrypted by the provider using the EHR or the patient using the patient portal, and may include clinical data, administrative data, and other information.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.14 Patient Health Information Capture	This functionality enables users to capture patient health information into chart to support their patient engagement in their care. Patient portal can be utilized to provide this data in addition to EHR functions.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	None	None	None	None
130.315.5.15 Transmission to Immunization Registries	This functionality also includes a means for recording or changing immunization information to a state registry using HL7 Immunization Messaging standard.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost for HL7 integration and other registries	None	None	None
130.315.5.16 Synchronic Surveillance	This functionality enables the EHR to electronically receive syndrome-based public health surveillance information for syndromic surveillance in accordance to the HL7/INM Messaging standard for Syndromic Surveillance.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost for HL7 integration and other registries	None	None	None
130.315.5.17 Transmission to cancer registries	This functionality enables EHR to create a cancer CDA document and submit to Cancer registries.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost for HL7 integration and other registries	None	None	None
130.315.5.18 Transmission to Public Health agencies - healthcare coverage	This functionality enables EHR to create a healthcare enrollment survey ICD-9 CDA document and submit to CDC.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost for HL7 integration and other registries	None	None	None
130.315(6)(2) Automated measure calculation	This functionality enables certifying EHR to record and calculate objective measures.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	Additional cost may apply for Submission of Data	None	None	None
130.315(6)(2) Safety Enhance Design	This functionality enables certifying EHR to meet the summative usability guidelines for ePrescribing.			None	None	None
130.315(6)(2) Accessibility enhanced Design	This functionality enables use of certified EHR technology for users with disability. Professional DSH defined by WCAG 2.0 standards.			None	None	None
130.315(6)(2) Controlled CDA performance	This functionality enables the CDA performance for all CDA documents generated from certified EHR to CDA prescribed standards.	Monthly Subscription Fees (Per Provider) - It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional costs	The additional cost will be for One-Time Setup Cost for Direct Message. Additional cost for HL7 integration and other registries	None	None	None

130.315(97) Application access - Patient selection	This functionality enables patient to connect with Open API of Oncobid.	Identify Subscription Fees (Per Provider - It includes all updates, support and technical support - in any included Patient Portal at no additional costs		None	None	None	None	None	None
130.315(98) Application access - Data category request	This functionality enables patient to connect with open API with Oncobid. DRB and request data from Common Clinical Data set categories.	Identify Subscription Fees (Per Provider - It includes all updates, support and technical support - in any included Patient Portal at no additional costs		None	None	None	None	None	None
130.315(99) Application access - All data request	This functionality enables patient to connect with open API with Oncobid. DRB and request data from Common Clinical Data set categories.	Identify Subscription Fees (Per Provider - It includes all updates, support and technical support - in any included Patient Portal at no additional costs		None	None	None	None	None	None
130.315(10) Direct Project	This functionality allows certified DRB to connect with any HIE and demonstrate interoperability using DRBCT protocols. We have Direct Project integration with Ogilvie.		The additional cost will be for One Time Setup Cost for Direct Message (Per Provider (Per Month))	None	None	None	None	None	None
