

Capability	Description of Capability	Types of Costs or Fees to be paid by a provider for the capability	Additional Types of Costs or Fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and/or use the capability.
130.310.1.1 Computerized Provider Order Entry (CPOE) Medication	This functionality enables users of CPOE to place medication orders electronically. (MediMug Drug database)	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.2 Computerized Provider Order Entry (CPOE) Lab Order	This functionality enables users of CPOE to place lab orders electronically.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.3 Computerized Provider Order Entry (CPOE) Imaging Order	This functionality enables users of CPOE to place imaging orders electronically.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.4 Single Drug Order to Image Integration Check	This functionality enables CPOE users to be notified of conflicting medication orders before they commit the orders to patient's chart. The # of subscriptions to the CPOE provides access to MediMug Drug database affiliation review alerts during the process of ordering medication.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.5 Demographics	This functionality enables CPOE users to capture demographic information of the patient. There is integration with PH system and PH system is the source for capturing demographic data as part of patient intake process.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.6 Problem List	This functionality enables a user to electronically review, change, and access a patient's active problem list over multiple encounters, following ICD-9, ICD-10, and SNOMED standards.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.7 Medication List	This functionality enables a user to electronically review, change, and access a patient's active medication list as well as medication history over multiple encounters, following RxNorm, CDA, and NDC standards. (MediMug Drug Database)	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.8 Medication Allergy List	This functionality enables a user to electronically review, change, and access a patient's active medication allergy list as well as medication allergy history over multiple encounters, following RxNorm standards.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month)
130.310.1.9 Clinical Decision Support	Through support of content programs, users can leverage patient-specific, actionable alerts and notifications. Inherent access to critical data and perspective facilitates broader real-time documentation facilities positive behavior changes at the point-of-care, improving patient outcomes.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year, EPCS (Prescription for Controlled Drugs - Per Provider/Per Month), Direct Message (Per Provider/Per Month), One Time Set Up Cost for provider paid by Lab, One Time Imaging Center Integration paid by Imaging Center, Additional cost for EHE integration and other registries.
130.310.1.10 Drug Formulary Check	This functionality enables a CPOE user to perform Drug Formulary Check during medication generation. This functionality is included in DRB subscriptions and utilizes the Sunovion eligibility files to determine formulary coverage.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.11 Smoking Status	This functionality enables a user to electronically review, change, and access the smoking status of a patient using SNOMED standards.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.12 Family Health History	This functionality enables the user to electronically record, change and access a patient's family health history.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.13 Patient Specific Education Resources	This functionality enables the user to electronically identify patient specific education resources based on data included in the patient's problem list, medication list and laboratory tests and observations, allowing for patient education.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.14 Implantable Device List	This functionality enables capture of patient implantable device data as history in the chart. This verified DRB connects with FDA Medwatchers QIDDI to incorporate the device ID and unique device identifiers for the implantable device.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.15 Social, Psychologic, and Behavioral Data	This functionality enables capture of social, psychologic and behavioral data in a question and answer format in patient chart.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.16 Create and Transmit Summary of Care Record	This functionality enables a user to electronically create and transmit a summary of care/summary of care form, which includes encounter diagnosis, medication, laboratory, CDA, and NDC standards. (MediMug Drug Database)	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month), Additional cost for EHE integration and other registries.
130.310.1.17 Clinical Observation Recalculation and Incorporation	This functionality enables a user to electronically recalculate patient, medication, allergy, medication, and immunization listed in an existing transition of care/transfer summary - CDA format - against the patient's medication list, problem list, medication allergy list, and immunization list in the DRB.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.18 ePrescribing	Complete with the DRB integration checks, allergy checks and demographic functions. This functionality enables a user to prescribe and issue prescriptions directly from the screen form to the patient's pharmacy pharmacy for faster fulfillment. This functionality uses RxNorm and NCP standards, and the Sunovion infrastructure for prescription transmission to the pharmacy.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), EPCS (Prescription for Controlled Drugs - Per Provider/Per Month)
130.310.1.19 Data Export	This functionality enables a user to electronically create a PDF of report summaries for all patients. ECD format that represents the most current clinical information about each patient. It includes clinical data, patient or Common Clinical Data Set, the reason for referral, and the referring or consulting provider name and office contact information.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.20 Capture and Export	This functionality enables a user to electronically capture and export all the data necessary to calculate each of the Allscripts supported Clinical Quality Measures (CQM), including the calculation of CQM exceptions and exclusions.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost may apply for Submission of Data by Onvivo/Direct Message (Per Provider/Per Month)
130.310.1.21 Import and Calculate	This functionality enables a user to electronically import all the captured data needed to calculate each of the Onvivo/Direct Message supported Clinical Quality Measures (CQM) and calculate each certified CQM using the Quality Reporting Document Architecture standard.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost may apply for Submission of Data by Onvivo/Direct Message (Per Provider/Per Month)
130.310.1.22 Electronic Submission	This functionality enables a user to electronically create a data file for transmission of Clinical Quality Measures (CQM) data according to the Quality Reporting Document Architecture standard.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost may apply for Submission of Data by Onvivo/Direct Message (Per Provider/Per Month)
130.310.1.23 View, Download and Forward to History	This functionality enables patients to view, download or forward their health information in the patient portal that was sent from Onvivo/Direct Message. The data description is the central clinical data set. Any time there are patient chart changes, the DRB automatically sends an update of the chart in CDA format to the patient portal for the patient to view.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for Drug Database (MediMug Center - Per Provider/Per Month), NMA DPT and ECD Annual Equity Fees. Per provider/per year.
130.310.1.24 Secure Messaging	This functionality enables users to send and receive secure message to/from patients in the DRB using the Onvivo/Direct Message patient portal. Secure messages may be sent by the provider using the DRB to the patients using the patient portal, and may include clinical data, administrative data, and other information.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.25 Patient Health Information Capture	This functionality enables user to capture patient health information into chart to support better patient engagement in their care. Patient portal can be utilized to provide the data in addition to DRB functions.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.1 Transmission to Immunization Registries	This functionality electronically transmits the record or change immunization information to a state registry using HL7 Immunization Messaging standard.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.2 Transmission to Cancer registries	This functionality enables the DRB to electronically create syndrome based public health surveillance information for electronic transmission in accordance to the HL7 messaging standard for Synthetic Surveillance.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.3 Transmission to cancer registries	This functionality enables DRB to create a HealthCare Information System (HCIS) CDA document and submit to cancer registries.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.4 Transmission to Public Health agencies/Healthcare survey	This functionality enables DRB to create a HealthCare Information System (HCIS) CDA document and submit to CDA.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.5 Automated measures calculation	This functionality enables sending DRB to send calculated clinical measures.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost may apply for Submission of Data by Onvivo/Direct Message (Per Provider/Per Month)
130.310.1.6 Safety Software Design	This functionality enables sending DRB to meet the summative usability guidelines for end users.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.7 Accessibility enhanced design	This functionality enables use of certified DRB technology for users with disability. Professional DRB adhered to WCAG 2.2 standards.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.8 Confidentiality of performance	This functionality verifies the CDA performance for all CDA documents generated from certified DRB to ONC prescribed standards.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	Additional cost for EHE integration and other registries.
130.310.1.9 Application access - Patient selection	This functionality enables patients to connect with Open APIs of Onvivo/Direct Message.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.10 Application access - Data category request	This functionality enables patients to connect with Open APIs with Onvivo/Direct Message and request data from Common Clinical Data set categories.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.11 Application access - All data request	This functionality enables patients to connect with Open APIs with Onvivo/Direct Message and request data from Common Clinical Data set categories.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
130.310.1.12 Direct Project	This functionality allows certified DRB to connect with any HIE and demonstrate interoperability using DIRECT protocols. We have Direct Project integration with Onvivo/Direct Message.	Monthly Subscription Fee /Per Provider. It includes all updates, upgrades and technical support. It also includes Patient Portal at no additional cost.	The additional cost will be for One Time Setup Cost for Direct Message, Direct Message (Per Provider/Per Month)
